

KALYAN RAM MATCHA

mkalyan8400@gmail.com | +91 8885238264 | [LinkedIn](#) | Visakhapatnam, Andhra Pradesh

EDUCATION

Gayatri Vidya Parishad College of Engineering (Autonomous)

2023-2027

CSE (AI & ML) | CGPA: 9.31

Sri Venkateshwara Junior College

2021-2023

Intermediate in MPC | Percentage: 94.7%

PROJECTS

1. **LeetCode Buddy Matcher** | Node.js, Express, React, Socket.IO, WebSocket | [GitHub](#) | [LIVE Link](#)

- Designed and deployed a **real-time collaboration** platform that pairs users **solving the same LeetCode problems**, increasing completion rates by **20%** through **collaborative matching**.
- Enhanced developer productivity by **cutting debugging effort 30%** through **peer-to-peer collaboration** and **instant communication**.
- Optimized solution scalability and reliability**, ensuring sub-100ms latency and stable sessions across multiple concurrent users.

2. **Folio Forge (Portfolio Maker)** | Node.js, React, Express, GitHub OAuth | [GitHub](#) | [LIVE Link](#)

- Built a no-code portfolio generation platform** that empowers non-technical users to create and deploy personal websites in under 5 minutes.
- Automated deployment workflows with GitHub OAuth integration**, reducing manual setup time by **75%** and simplifying onboarding for first-time users.
- Delivered a scalable, client-friendly solution** with zero-terminal deployment, enabling seamless hosting and professional portfolio creation without technical barriers.

3. **Daily Commodities Price Predictor** | Python, AWS(EC2/S3), Machine Learning

- Processed and deployed 60,000+ commodity price records** on AWS (S3/EC2) to enable scalable access and efficient training workflows.
- Built predictive models using production quantity, seasonality, weather, and state-level data**, achieving **~85% accuracy** in price trend forecasting.
- Automated data preprocessing and feature engineering**, reducing manual effort by **40%** and improving model stability.
- Generated 25+ interactive graphs** (trend lines, seasonal effects, state-wise variations) for better decision-making and insight visualization.

SKILLS

Languages: C++, Python, JavaScript

Backend: Node.js, Express.js, Django

Frontend: React.js, HTML, CSS

CS Fundamentals: Data Structures and Algorithms, OOP, DBMS

Databases: MySQL, SQLite

Tools: Git, GitHub

AI/ML: Scikit-Learn, Pandas, NumPy, NLP

CLOUD: AWS

Deployment Platforms: Vercel, Render, Railway, AWS

ACHIEVEMENTS

• **AWS AI/ML Virtual Internship | AWS Academy**

- Learned and applied AWS cloud services (EC2, S3, SageMaker) for dataset management and model training.
- Gained exposure to cloud deployment workflows, completing 3+ guided AI/ML projects.

• **Hack2Impact – Top 11 Finalist (Inter-College Hackathon)**

Created a LeetCode Partner Matcher that pairs programmers based on real-time problem activity. Ranked in the top 11 out of 70+ teams.
